Course Overview

Your internship is the chance to set and to achieve learning objectives at your place of internship that will increase your knowledge and skills in your chosen position. This opportunity will also provide much needed work experience. Lastly, you will be able to carefully consider conditions and practices at your place of internship, which will inform your future career decisions.

Contacting Me

The easiest way to get a hold of me is via email. Although my voicemails do get forwarded to my email account, I only return phone calls from my office phone. I will, however, respond to emails from remote locations (i.e. home, conferences, off-campus meetings, etc.). I will check and respond to emails periodically Tuesday through Thursday between 8:00 am and 5:00 pm. If you email me past 5:00 pm or over the weekend, I will respond to you the following work day.

Grades and Assignments

Your grade for the internship will be based on the following assignments:

1. Initial Meeting – Before you begin to work at your internship, you must attend an initial meeting with me. We will review the requirements for the course and I will gather the necessary contact information for your internship supervisor. You will not receive the points for this meeting until all necessary contact information is gathered. You may do this meeting over the phone if you are unable to meet me in person.
2. Goal Setting – You will set your own goals in consultation with your supervisor at work. You need to transcribe these goals and send them/drop them off to me with you and your

supervisor's signature indicating these goals are acceptable to the both of you. *This document is due no later than January 26th.*

3. Supervisor Evaluations – Your supervisor is required to fill out two evaluations during the course of the summer term. Although these evaluations need to be completed by your advisor, it is your responsibility to get them in to me on time. Copies of the evaluations are available at the end of this syllabus. You will be graded on your reported performance by your supervisor. This includes, but is not limited to, completing your required hours, being punctual, acting professionally, and completing your assigned tasks. The first evaluation is due March 16th. The second evaluation is due April 24th. Late evaluations will result in a point total deduction.
4. Final Report – A copy of the Final Report is also found at the end of this syllabus. You will need to fill it out and turn it in by May 1st. This report is your chance to comment on your internship experience. The open ended questions will be graded as any other short answer assignment would be evaluated. Be clear and thoughtful in your responses.

Class Academic Dishonesty/Academic Integrity Policy

I believe that most students are honest, and I don't want to punish everyone for the few that aren't. Nonetheless, I want it to be clear that I will not tolerate cheating. When I discover that it has occurred, a failing grade will be given for the entire course, no questions asked. If you are a repeat offender, I will choose a more serious sanction that will be imposed (i.e. notation of academic misconduct on your permanent academic transcript, academic probation, dismissal from the program, dismissal from college, etc.).

If you need additional detail about what cheating consists of follow this link to the “Student Rights and Responsibilities Code”: <http://www.dixie.edu/humanres/policy/sec5/533.html> (Section 4).

Comments:

Describe skills that you would have liked to acquire but were not able to. What could your worksite have provided for you to acquire those skills?

Would you suggest any steps your worksite could take to make interns feel more welcome and provide them with better oversight?

Explain whether the work you did was challenging and interesting. If you did not find it so or if it was too difficult, explain and suggest ways to improve this situation.

What career expectations did you bring to your internship? How were they reinforced, or how did they change?

What improvements would you recommend to the method of communication between the faculty/group leaders and the interns?
