Academic integrity:

DSC believes that most students are honest. However, cheating will not be tolerated, and if discovered, a zero grade will be given for that assignment or exam, and you will not be allowed to make it up. Repeated or aggravated offenses will result in failing the course. Any time you take credit for work you did not do, you are cheating. This includes getting the answers to homework problems from someone else, copying information from a library or internet source and presenting it as if it were your own words which is called plagiarism. Plagiarism is a particularly serious offense in academia.

Looking at someone else's answers on an exam, and asking someone who has already taken a test about what questions it contains also constitutes cheating. This course has been designed to minimize the temptation to cheat, however it is not the job DSC or the instructor to make things "cheat proof." If you cheat and are not caught, it doesn't mean that you "beat the system." It means you violated the Student Code and forfeited your integrity.

For further information on the Student code please refer to <http://library.dixie.edu/policies/studentcodesectionfour.pdf> page 8. DSC is committed to helping students honor the student code and to have consequences for those who do not abide by its standards.
