**REQUIRED SOFTWARE**

IBM SPSS Single User License. This is required and will cost about \$60. You can find information at [www.onthehub.com](http://www.onthehub.com). You will need the 6 month rental. It is a program you download from the internet. You can either load the software on the lab computer for your use, or you can load the software onto a personal laptop that you can bring to class. Please ask the instructor for further details.

**RECOMMENDED TEXTBOOK**

Publication Manual of the American Psychological Association, Sixth Edition by American Psychological Association (Jul 2009). ISBN: 9781433805615

**COURSE DESCRIPTION:**

Required of Psychology majors. An introduction to and application of statistical methods in psychological research. Students will design and measure psychological constructs, select, compute, and interpret descriptive and inferential statistics, use computer technology to facilitate statistical analyses, accurately represent the results of statistical analyses, and critically analyze methodological and statistical arguments. Combined lecture / lab. Prerequisites: PSY 1010; and MATH 1040; Psychology Major or Integrated Studies Emphasis in Psychology major; or instructor permission.4 credits.

**PSYCHOLOGY MAJOR**

This is required for the Psychology Bachelor degree (BA/BS)

## **OTHER MATERIALS**

You may bring your laptop to class. PowerPoint slides will be available on CANVAS <https://canvas.dixie.edu/> . Please bring a notepad and pen/pencil to each class so that you are able to participate in class Tests and other in-class activities.

## **COURSE LEARNING OBJECTIVES**

This course will meet the following Psychology Learning Objectives:

*LEARNING GOAL 1: RESEARCH METHODS IN PSYCHOLOGY: Understand and apply basic research statistics in psychology, including research design, data analysis, and interpretation.*

*LEARNING GOAL 2: CRITICAL THINKING SKILLS IN PSYCHOLOGY: Respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.*

*LEARNING GOAL 3: APPLICATION OF PSYCHOLOGY: Understand and apply psychological principles to personal, social, and organizational issues*

## **ATTENDANCE**

Please refer to <http://www.dixie.edu/humanres/policy/sec5/523.html> for a full explanation for the DSC Attendance Policy. Regular and prompt attendance in classes and laboratory sessions is expected of every Dixie State College student. An absence does not excuse a student from completing work missed. It is the student's responsibility to find out which assignments are missed during an absence.

Students who must miss class because of a college-sanctioned activity, such as an athletic event, club activity, class assignment, or other approved event, are responsible to assuring that their instructors have been notified and for completing any missed assignments. By the second day of class, students with recurring absences must provide each instructor written notification from the appropriate department that includes a schedule of competition, the names of those students on specific teams likely to travel, and the dates and approximate times of departure and return to campus. So that student participation in travel can be verified, the appropriate department will be responsible for informing individual faculty of changes to team rosters and travel schedules throughout the semester. One week prior to an absence, the student will meet with the instructor to arrange a reasonable accommodation, if feasible, to allow the students to complete any missed coursework and/or exams. The instructor may require the student to submit work prior to the due date if the student will be absent. It is the student's responsibility to complete the student absence schedule with the instructor and abide by it. Students with recurring or frequent absences from a course are required to check their schedules against the course syllabus and provide a list of expected absences for the semester by the second day of class. Upon reviewing the list, the instructor may determine that the absences will interfere with the student's ability to succeed in the course. If so, the instructor will recommend that the student seek an alternative.

## **CLASS POLICIES AND DISCIPLINE POLICY**

1. Turn off/silence any cell phones. Phones ringing/vibrating can be very distracting for everyone.
2. Come to class on time. It can be distracting to have students coming/going at different times. Make an effort to either come early or on time to class. Also, please make every effort to stay for the entire class period. If arriving/leaving on time is going to be an issue, please contact me so we can resolve this.
3. Read text before class session. This will only help you to better understand the material. If you read the text before class you will be prepared to ask questions during lecture.
4. Check CANVAS and dmail regularly.

5. This course is designed so that you spend six to nine hours per week between in-class participation and out of class activities.
6. This course will operate on the philosophy that active engagement with material fosters quality learning. There will be ample opportunity for in-class activities and discussion, both in small groups and with the entire class. Students are expected to read assigned text prior to class and be prepared to participate in class.
7. Students are expected to coordinate in-class small group work effectively.
8. Each student will have courtesy and respectful behavior towards each student and the instructor. Students will refrain from making harassing and discriminating comments in the classroom. Students will be respectful and open-minded about diverse viewpoints expressed in the classroom. Teachers at Dixie State College have the right to manage the classroom environment to ensure a good learning climate. Toward this end, teachers (or college security) may dismiss and remove disruptive students from individual class activities. If a student's behavior continues to disrupt class activities, the teacher may dismiss and cause the removal of disruptive students from their course. Please refer to the DSC Academic Discipline policy for more information:

<http://www.dixie.edu/humanres/policy/sec3/334.html> or  
[www.dixie.edu/humanres/policy/sec5/533.html](http://www.dixie.edu/humanres/policy/sec5/533.html)

Faculty Rights and Responsibilities:

- To establish and implement academic and behavioral standards for the classroom
- To clearly outline expectations, verbally and in syllabi
- To address any inappropriate behavior
- To involve other offices (Dean of Students, Campus Police, etc.) when circumstances arise
- To make a determination regarding possible responses and outcomes for inappropriate behavior within the faculty member's class

What is disruptive behavior?

Disruptive behavior may best be defined as any behavior that inhibits an instructor's ability to conduct class, or behavior that limits another student's ability to benefit from instruction – including conduct, speech, or activity that interferes with the learning activities of other students. Some examples of disruptive behavior may include:

- Physical violence, verbal abuse, or harassment
- Sleeping in class
- Not facing forward in the class
- Putting your feet up on chairs and desks
- Intoxication or illegal drug use
- Use of profanity
- Having side conversations with classmates
- Failing to respect others when expressing their own viewpoints
- Talking while the instructor or another student is talking
- Arriving late to class
- Constant questions or interruptions that interfere with classroom presentation

Students engaging in disruptive behavior will be asked to immediately leave the classroom. If the student does not voluntarily leave the classroom, campus security can be called at DSC Campus Police immediately by calling 437-619-1144 or 435-619-1145.

If you believe that a student in the class is interrupting your ability to learn please notify the instructor as soon as possible so that the issue can be remedied.

9. You will receive grades for completed assignments within 1 week (7 days) of your submission. I will respond to your emails within 24-48 hours (I am usually able to respond within 12-24 hours).

However, there is a high probability I will not respond to emails on Saturday and Sunday. Thus, if you email me on Friday at 5pm, there is a high likelihood that I will not respond to you until Monday.

## **EARNING POINTS IN THIS COURSE**

### **Homework Assignments (5 points each; 14 assignments , you can drop one assignment = 65 points total):**

You will be assigned homework for each chapter. You are graded on completion, not for correctness. All odd-numbered questions have answers in the back of the book. It is your best interest to understand and genuinely do your homework since variations of many of the Exam questions will come from these homework assignments.

### **Lab Exercises (8 points each; 18 lab days, you can drop one lab; 136 points total):**

There are several lab exercises you will complete. The exercises are due at the end of lab. Late exercises will be deducted 10% if turned in late the same day of class. Then, the late penalty will of 20% will be deducted for each calendar day the assignment is late.

**Exams (50 points each; 3 exams = 150 points total).** Three exams will be administered during the course. Tests may include True-False, Multiple Choice format questions, short answer questions, as well as computations. These tests will be relevant to what is covered in lecture, lab, and the text. You can contact the instructor during office hours to discuss test grading. Exam questions will come from four sources: (1) “A Quick Review” from the end of each chapter, (2) assigned homework questions, (3) concepts covered in lab, (4) lecture, and (5) defining “Key Terms”.

### **Extra Credit**

There may be an opportunity for extra credit, up to 10 points. The instructor will present any opportunities for extra credit to the entire class. The instructor will not provide extra credit opportunities on an individual basis.

## **LATE WORK AND MAKE-UP POLICY**

Exams, cannot be made up or be submitted at a date/time past the assigned due date. Please arrange your schedule so that you are able to complete all course requirements on the designated time. If you know you will be out of class, you need to make arrangements to turn in your assignments or take your exam before the scheduled due date. Any homework assignments that are submitted late will be penalized 20% for each calendar day it is late.

### **Percentage (%) Letter Grade**

100-93 = A	76-73 = C
92-90 = A-	72-70 = C-
89-87 = B+	69-67 = D+
86-83 = B	66-63 = D
82-80 = B-	62-60 = D-
79-77 = C+	Less than 60 = F

## HOW TO SUCCEED IN THIS COURSE

Come to class, do the assignments, study, read the text, review notes, and do the review activities located at the back of chapters, ask questions, and be involved in the class.
