TEXT: Burger, J. M. (2008). *Personality*. (7th ed.) Belmont, CA: Thomson.

SUPPLEMENTAL READINGS: Posted to Canvas.

I. Purpose of the Course

This course will provide you with an introduction to Personality Theory – including many of the major psychological approaches to answering the following questions: What is a person? What does it mean to know a person? How do people become who they are? Can personality change or does it solidify and become immune to influence? To what extent is personality responsible for behavior? The pre-requisite for this course is Psychology 1010. This is a 3 cr. course.

II. Course Objectives

- To engage in a comprehensive review of major theories and approaches used in personality psychology.
- To understand the applicability of personality theory in research, and in real life.
- To understand how to critique ideas presented by personality theorists.
- To strengthen skills in critical thinking regarding assessment of subjective areas of human psychology.

III. Learning Outcomes

- Describe major and emerging theories of personality by achieving passing scores on criterion referenced quizzes.
- Explain personality theories as they relate to assessment methods through classroom discourse and performance on criterion referenced quizzes.
- Conduct analyses of personality according to major theories and present findings in written format and through classroom discourse.
- Understand and describe the differences between major theoretical approaches to personality in classroom discourse, classroom assignments, and on the final exam.

III. Class Policies

A. Behave honorably. That's important to me and (I'm sure) to you. That means that I expect that you do not cheat and that you bring to my attention your knowledge of cheating that others might do. Remember that cheating involves both getting help and giving help on evaluated tasks that are supposed to be done independently (e.g., tests, quizzes, written projects).

B. Turn off all electronic equipment before entering the classroom (laptops may be used to take notes only). After the first 2 weeks of class, if I see you using unauthorized electronic devices of any kind at any time in the classroom (or using a laptop for anything other than taking notes), I will deduct 5% of your total course points for each offense.

C. Arrive on time and no competitive talking.

D. Avoid leaving lecture early. Not only is this distracting to your fellow students, it's distracting to me. I do understand that occasionally people must miss part of a class. **If you intend to do so, please let me know and**

then sit near the door if possible, so you can slip out without distracting everyone.

E. If you have questions, please ask. You may try to see me after class, but don't get frustrated if there is not time. Best: come by my office during office hours or set up an appointment with me. You are my priority at DSC. We can find a time that works for both of us.

F. Notes. I will not post notes or slides to Canvas. You will learn more if I don't.

IV. Exam Information and Policy

A. YOU MUST DROP ONE of the five regular exams. If you must take the final, you **cannot drop it**.

B. On the four exams, there will be no make-ups or early exams. *If you cannot take the exam at the time it is offered, you receive a zero.* Presumably you will drop that grade. If you miss a second exam and have a legitimate excuse (legitimate means that you face dire circumstances like serious documented injury/illness) contact me and we will arrange for a make-up. The make-up will be different from the exam taken by others in the course.

People have valid reasons for missing exams. Some of these reasons include illness, official university functions (like athletic teams, chorus trips, etc.), court dates, jury duty, sick relatives, surprise work obligations, and many others. However, I believe that (1) make-up exams are not fair to others who aren't allowed to take them, (2) you should not have to justify your absence at one of the exams, and (3) you shouldn't put me in the position of judging the validity of your excuse. Thus, I declare all excuses to be valid--for missing one exam.

C. Exams will only cover the material since the previous exam. Each exam will consist of questions regarding material from the book, lecture/discussion, and any supplemental readings. Exams may include multiple choice, true-false, and short answer questions.

D. Every exam will be given at the testing center and will be given electronically (computerized). All you need to take with you is a **picture ID**. If you do not bring your ID to the testing center, you will not be allowed to take the exam. Do not bring any other material (e.g., no books or papers). Testing Center - <http://new.dixie.edu/testing>

E. You will have a window of 4 days to go to the testing center to complete each exam (check the testing center website listed above for hours). Once you start the exam you will have 60 minutes to complete it.

F. If you have a question about your score on an exam, come by my office during office hours or set up an appointment with me. We can go over the exam to make sure it was scored correctly. You can also ask for clarification regarding exam questions. I offer this opportunity out of respect to you. Please return that courtesy in your challenges.

G. The Final Exam. Taken in class from **9:30-11:30 on Thursday May 2nd**. It's comprehensive and worth 150 pts.

V. Earning Points in the Course

A. Exams: Four exams taken at the testing center, each exam will assess your mastery of basic concepts and ideas corresponding to the major approaches to personality. Each exam is worth 100 points. You will drop your lowest exam score.

Total for Exams	300 pts.
-----------------	-----------------

B. Case Studies: To demonstrate your mastery of the major theoretical approaches to understanding personality, you will complete **THREE short case studies (2-3 pp. max)**. Each case study is worth 25 points. Case studies include a brief description or depiction of an individual, and a series of questions designed to foster an in-depth analysis and understanding of the individual's personality from a particular theoretical perspective. Instructions will be distributed with each case study. Late case studies will receive a penalty.

Total for Case Studies	75 pts.
------------------------	----------------

C. Final Exam: Taken in class from 9:30-11:30 Thursday May 2nd. This may not be dropped.
 Total for Final Exam **150 pts.**

Summary of Points Possible:

Exams	300
Case Studies	75
Final Exam	150

Total 525 pts.

The College shall consistently hold students accountable for instances of academic dishonesty and apply appropriate consequences. Definitions for some types of academic misconduct follow:

Cheating: Includes but is not limited to the use of unauthorized materials, information, or study aids in any academic exercise; failing to observe the expressed procedures or instructions of an academic exercise; substituting for or impersonating someone else during a test or exam or other fraud; or receiving the content of a test or exam before it is administered.

DISRUPTIVE BEHAVIOR POLICY

Instructors and students have a right to an educational environment that is supportive of the learning process. It is the responsibility of the instructor to create and maintain this environment. It is the responsibility of the student to act in a manner that is appropriate for the classroom and to adhere to established standards and expectations.

What is disruptive behavior?

Disruptive behavior may best be defined as any behavior that inhibits an instructor's ability to conduct class, or behavior that limits another student's ability to benefit from instruction – including conduct, speech, or activity that interferes with the learning activities of other students. Some examples of disruptive behavior may include:

- Physical violence, verbal abuse, or harassment
