The Course:

Sociology is the scientific study of people doing things together. In this course we will discover that our behaviors, from the local and intimate to the global and public, are patterned and situated within the groups, communities, and societies of which we are members. We will see that sociologists uncover and understand our behaviors via empirical observations. By the end of the course you will develop a Sociological Imagination--a perspective of the world that recognizes the interconnectedness of personal biographies and larger global and historical events.

Course Objectives:

Students completing Introduction to Sociology will:

- demonstrate an ability to identify the ideas, people, and events that are generally thought to be important by sociologists;
- demonstrate an understanding of sociology as a scientific discipline (i.e. the gathering and analyzing of empirical data in a systematic fashion);
- demonstrate an understanding of functionalism, conflict, and symbolic interactionism as the major theoretical perspectives of sociology;
- demonstrate an understanding of the five main institutions of society (family, religion, education, economy, politics) from a sociological perspective.

Evaluation:

Grades will be based on three multiple choice exams, one term paper and an undetermined number of Random Attendances. The weight of the exams, attendances, and paper in determining your final grade are as follows:

Exam #1:	15%
Exam #2:	20%
Exam #3:	25%
Paper:	30%
Attendance:	10%

Exams :

Exams will be multiple choice, 50 questions each, and graded on a straight 10 percent scale:

45 - 50 = A
40 - 44 = B
35 - 40 = C
30 - 34 = D

EXAMS MUST BE TAKEN ON ASSIGNED DATES.

Paper:

For your paper you will engage in some sociological fieldwork of your own, applying concepts we've learned in the course to your observations. I will make a paper assignment available on January 23, it is due in class on March 29. LATE PAPERS WILL BE GRADED DOWN ONE FULL GRADE.

Random Attendance:

At the beginning of every class we will throw a four-sided die to determine if attendance will be taken. If our predetermined number comes up on the die, attendance will be taken. If you are in class for:

90% or more of the random attendance roles you will receive an 'A';
80% - 89% of the roles you will receive a 'B';
70% - 79% of the roles you will receive a 'C';
60% - 69% of the roles you will receive a 'D';
Less than 60% of the roles you will receive an 'F'.

Attendance:

Attendance is not mandatory. However, I lecture on material that is not in the text. There will be exam questions from my lectures that are not from the text. If you miss class you risk missing information that will be on the exam. You also risk missing a Random Attendance if you don't show up for class.

NOTE: Your final grade is based on your letter grades, not on your accumulation of points.

ANOTHER NOTE: You must complete all exams and assignments to pass this class.

FINAL NOTE: I reserve the right to (a) adjust individual grades based on my evaluation of your participation and enthusiasm in the course and (b) make changes to the syllabus during the course if I feel it will benefit the class.
